Graduate Histology

Fall 2017 - Spring 2018

Oct 23, 2017 – Mar 23, 2018

Goals

To acquire knowledge and develop skills in microscopic anatomy and its application and relevance to human physiology, biochemical function and disease

Course format

This course is clinically oriented and provides in-depth knowledge of microscopic anatomy of the whole body. It includes interactive problem-solving table conferences in histology (ITCH). Students attend classes with first-year medical students. The course covers the fundamentals of cell structure and basic tissues, as well as the microscopic structure of organ systems. You will be working in a team - together with students on your Histology ITCH table. This course will also assess your understanding of only one aspect of professionalism, namely teamwork and ability to work in teams.

Grading

Grade will be calculated according to the following schematic:

A final grade of B- or above is required to pass this course. A grade of C+ is a provisional passing grade. You will not be permitted to graduate from the Anatomy Graduate program with a C grade

Course Director:

Dr. Lu Xu

Credits: 5

Dates of class:

Every week as posted

Required:

Attend laboratory

Take block exams

Grades

Final grades will be posted in Blackboard at the end of the course

100 – 94	A
93.9 – 88	A-
87.9 – 82	B+
81.9 – 76	B
75.9 – 70	B-

Below 70	C+
