Now that the holidays are here, most people want to continue to be mindful of COVID-19 safety practices around family members.

Tulane now offers retail COVID-19 testing (both asymptomatic and symptomatic) to non-employees through Jan. 2. To set up non-employee testing, please follow the guidelines below.

Testing hours (through Dec. 17):

Monday through Friday 7 a.m. to 4 p.m., by appointment only

Saturday 7 a.m. to noon, by appointment only

CLOSED SUNDAYS

Testing hours (Dec. 18 through Jan. 2, with special holiday hours on Dec. 24 and 31):

Monday through Friday 7 a.m. to 3 p.m., by appointment only

Saturday 7 a.m. to noon, by appointment only

Dec. 24 and Dec. 31, 7 a.m. to noon, by appointment only

CLOSED SUNDAYS

CLOSED Dec. 25 (Christmas Day) and Jan. 1 (New Year's Day)

Cost and payment:

The cost is \$50 per immediate Tulane family member (spouse, adult children, parents, siblings) and \$100 for others. Payments are accepted by credit card only at the time the appointment is scheduled.

To schedule testing:

Call (504) 988-9866

You may need to leave a message and wait for someone to return your call and schedule the appointment, which will occur only during operational hours as listed above.

Please note: The Tulane Testing Center cannot test individuals under age 18.

When you call, please have the following information ready:

Credit card (for payment)

Full name

Age (18 and above only)

Address

Email address

Phone number

Testing location:

The LaSalle Testing Facility, located at 226 S. Villere St., New Orleans 70112

Results:

Results will be returned within 24 to 36 hours via the online patient portal. Information on portal access will be sent to the email address provided at test registration, via phone.

The School of Medicine will evaluate usage throughout December and make an announcement about future retail testing services in early January. However, please remember that while Tulane is pleased to be able to offer testing services, we must continue to follow all university and CDC guidelines to limit any potential exposure to COVID-19.
