Subject: Covid-19 Guidelines reminder
Date: Tuesday, January 11, 2022 8:09:46 AM

A quick and friendly summary of the University/SOM guidelines during this latest COVID-19 surge.

1. Everyone, regardless of their vaccine status, is required to wear masks while inside any campus building. The University recommends the use of KN95 masks while in campus buildings. A bulk supply is being ordered, which units may soon request through SciQuest from the downtown Storeroom.
2. Non-essential events with food and beverages should be cancelled.
3. Routine COVID-19 testing should be completed within 96 hours of receiving your QR code.
4. All students, faculty, and staff are required to receive a COVID-19 booster vaccine when they become eligible (now at 5 months post Pfizer or Moderna initial injection or 2 months post J&J vaccine).

Thank you, and stay safe.

Lee Hamm, MD, Sr Vice President and Dean, School of Medicine
