

MASTER OF SCIENCE IN CLINICAL RESEARCH METHODS with a Concentration in Pre-Surgical Training

This is a 58 credit, 2-year, full time curriculum designed for the recently graduated MD to pursue before entering a traditional training track. The program will educate students in the process and methods of clinical research, further their surgical knowledge and teach clinical skills necessary for a successful surgical internship. The student would be a resident of the New Orleans area and pursue the curriculum full time.

To apply, please email your interest to KNOBLE1@TULANE.EDU or [visit our website](#) for more information

Rolling Admissions Begin 4-1-2019 * Application Deadline 6-1-2019 * Classes Begin 7-1-2019

MSCR 7300 PRE-SURGICAL PROGRAM
