YOU'RE INVITED!

KCA's First Annual Virtual Patient Symposium

Saturday, November 7th

11:30am–5:00pm ET

Register at KidneyCancer.org

The Kidney Cancer Association (KCA) is excited to present our first annual Virtual Patient Symposium to bring leading kidney cancer experts directly to patients, caregivers, family members, and anyone looking to learn more about kidney cancer. The agenda was developed with feedback from the kidney cancer community and highlights include:

- Treatment options and current clinical trials for small renal masses and metastatic RCC
- Treatment options and current clinical trials for non-clear cell RCC
- A discussion about where we are with kidney cancer biomarkers
- Shared decision making and how patients can make the best choices for treatment
- Tools, tips, and tricks for managing side effects
- A survivorship panel for patients and caregivers to learn directly from those who have been in their shoes
