

Sent on behalf of Anna Gunod, Director Infection Prevention

Tulane Health System Team:

If you wear the Medline “Regular” size N95 respirator, you must be fit tested again as soon as possible for an alternative N95, as the supply of this particular respirator is in short supply.

We have an adequate supply of N95 respirators, and all respirators used for re-fit testing are CDC and NIOSH-approved for use with COVID-19 patients and other patients on airborne precautions.

Once you have been re-fit tested, please begin requesting the alternative N95 from the PPE room if you require an N95 for use that day.

N95 Fit testing will occur in Tulane Medical Center’s room 7206:

- Thursday, April 30, from 6:30 am – 2:30 pm
- Friday, May 1, from 6:30 am – 2:30 pm
- Monday, May 4, from 6:30 am – 2:30 pm
- Tuesday, May 5, from 6:30 am – 2:30 pm
- Wednesday, May 6, from 6:30 am – 2:30 pm

If you work at Tulane Lakeside Hospital or are unable to accommodate one of the above times, you may request an appointment in the Employee Health office by calling (504) 988-1871.

Please note:

- You only need to be re-fit tested if you wear the N96 Medline “Regular” size.
- We cannot perform N95 fit testing if you have facial hair that is non-compliant with the styles shown here:
<https://www.cdc.gov/niosh/npptl/pdfs/FacialHairWmask11282017-508.pdf>

Thank you for your attention to this matter.
