Fan, PhD, awarded NIH equipment grant

Jia Fan, PhD, an assistant professor in the Department of Biochemistry and Molecular Biology's Center of Cellular and Molecular Diagnostics (CCMD) at Tulane University School of Medicine, was awarded a \$1.4 million National Institutes of Health S10 shared instrument grant.

"This high-end equipment will open a new era of proteomic studies in Louisiana by providing many functions that currently do not exist anywhere in our state," said Fan. "My team will utilize this system to develop revolutionary single-cell proteomic technologies, providing deeper information of human health." [Read more here.](#)
