Researchers receive AHA grant to study COVID

The American Heart Association has awarded Tulane University researchers \$940,000 to study how COVID-19 spurs vascular inflammation that may increase risks for blood clots and lingering symptoms of long COVID.

Dr. Xuebin Qin, professor of microbiology and immunology at the Tulane National Primate Research Center, will lead a cross-disciplinary team to explore how the dysfunction of endothelial cells contributes to severe and long COVID outcomes. Co-investigators include Dr. Jay Kolls, Dr. Patrice Delafontaine, Yusuke Higashi, PhD, Nicholas Maness, PhD, and Stephen Braun, PhD. [Read more here.](#)
