Tulane University

Meta-Analysis Workshop

Tanika N. Kelly, PhD, MPH
Professor of Epidemiology
Director, Tulane Center for Public Health Genomics
Tulane University School of Public Health and Tropical Medicine

Featured Speaker

Learning Objectives:
1. Conduct systematic literature searches using large electronic databases and other resources
2. Assess the relevance and quality of scientific publications
3. Extract key data from scientific publications
4. Conduct quantitative analyses to synthesize information across a large-number of studies using standard meta-analysis techniques

Wednesday, November 20, 2019
1:00 PM - 3:00 PM
Tidewater Building, Room 1202
