Supporting primary care providers to promote mental health in children under 6 and their families

Mental Health Consultation
On-site, in-person, or by phone, email, or secure video

In-service trainings/“lunch and learns” for PCPs about early childhood mental health

Web-based resources to hand out to families or to learn more about the foundations of mental health

Possible Consultation Topics
- Promoting emotional health in typically-developing children
- Behavioral concerns
- Emotional problems or trauma reactions
- Parent-child relationships
- Medication questions
- Parenting resources for families
- And any others you want!
