

# 2013 Diabetes Research Seminar Series

**December 16, 2013** - *Transcription factor FOXO3: A crossroad of inflammation, proliferation and lipid droplets*

Susanna Savkovic, PhD, Department of Pathology, Tulane University School of Medicine

Department of Biochemistry and Molecular Biology Seminar Series

**December 6, 2013** - *Regulation of adaptive thermogenesis by the short isoform of PGC-1alpha*

Ji Suk Chang, PhD, Pennington Biomedical Research Center

Department of Pathology Grand Rounds

**December 5, 2013** - *Developmental androgen excess and the development of metabolic dysfunction and hypertension*

Franck Mauvais-Jarvis, MD, PhD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

Tulane Hypertension & Renal Center of Excellence Seminar Series

**November 18, 2013** - *Exploring novel strategies for the protection and regeneration of insulin-producing beta cells*

Hongju Wu, PhD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

Department of Biochemistry and Molecular Biology Seminar Series

**November 11, 2013** - *Novel role of the androgen receptor in glucose homeostasis*

Franck Mauvais-Jarvis, MD, PhD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

Department of Biochemistry and Molecular Biology Seminar Series

**October 29, 2013** - *Inflammation in Diabetes and Pre-Diabetes*

Vivian A. Fonseca, MD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

**October 21, 2013** - *Hypothalamic neurocircuitry in glucose and energy homeostasis*

Yanyan Jiang, Department of Physiology, Tulane University School of Medicine

**October 10, 2013** - *Estrogens and diabetes protection*

Franck Mauvais-Jarvis, MD, PhD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

**September 13, 2013** - *Non-classical estrogen receptor actions in insulin producing beta-cells*

Franck Mauvais-Jarvis, MD, PhD, Department of Medicine, Section of Endocrinology, Tulane University School of Medicine

Department of Cell and Molecular Biology & Tulane Neurosciences Program Seminar Series

**August 29, 2013** - *Acute melanocortin signaling in obesity and diabetes*

Kevin Williams, PhD, Department of Internal Medicine, UT Southwestern Medical Center

Tulane Neurosciences Program Seminar Series
