In-Person Session: June 23 (Fri), 11am-12pm
please RSVP to Weiwei Xu at wxu1@tulane.edu and indicate session preference

Announcements

- The Samueloff Lab seeks a Medical Research Scientist in neurosciences. The lab uses both in vivo and in vitro models to determine how cellular metabolism modulates brain and spinal cord regeneration, and to better understand the mechanisms thereby. Please feel free to contact PI directly. More information will be posted on the job posting in the portal.

- Multiple laboratory tech positions are available through the newly funded NIH project program grant "Estrogens, Cardiometabolic Health, and Female Cognitive Aging". Project leaders include Sarah Lindsey (Pharm), Ricardo Mostany (Pharm), and Andrea Zsombok (Phys) on the Downtown campus as well as Jill Daniel (Psych) and Laura Schrader (CMB) on the Uptown campus. Projects are at the intersection of neuroscience, cardiovascular and metabolic function, and women's health. For more information contact lindsey@tulane.edu

- Yi-Ping Li’s lab in the Department of Pathology, Tulane University SOM currently has multiple full-time research assistant and student research assistant positions open. The students interested may be from departments majoring in life science, chemistry, physics, computer science, mathematics or pre-medicine.

A Note from the BMS Program

On behalf of all the students and stuff of the BMS Program, we would like to say thank you to Dr. Diane Blake for her tireless dedication to the BMS Program!

Since becoming Co-Director in 2015, Dr. Blake played a critical role in growing the PhD and Master’s programs. She gave unconditional support and encouragement to both students and staff. We will miss her greatly, but congratulations on her well-deserved retirement!

THANK YOU DR. BLAKE!!

Happy Pride Month!

Happy Juneteenth!
