CTU recruiting elderly participants for RSV vaccine study

Respiratory syncytial virus, or RSV, is a common seasonal virus that affects the airways of the lungs. Many people know RSV as a virus that causes problems for infants, but it can also cause serious complications including inflammation of the lungs and

pneumonia in older adults.

Tulane's Clinical Translation Unit (CTU) is part of the EVERGREEN Study, which is testing the efficacy of a vaccine developed by Janssen Vaccines & Prevention B.V. The study is examining if the vaccine can prevent RSV in seniors. [For more information, click here.](#)
