Han awarded \$2 million grant

Dr. Jeffrey Han, associate professor of biochemistry and molecular biology, was recently awarded a five-year, \$2 million National Institute of General Medical Sciences (NIGMS) grant.

Han and his team aim to better understand how DNA damage caused by the transposon L1 causes infertility in a mouse model. A better

understanding of the biology of L1 could also help researchers make connections to other diseases associated with transposon activity, including cancer. [Read more here.](#)

Lagniappe

Mark your calendars for **Thursday, May 26.** Photographer Cheryl Gerber will be at the School of Medicine to take head shots for faculty, staff, residents & fellows and students from **10am - 6pm.** Location information and a sign up sheet will be posted in next week's Inside Tulane Medicine.
