## Renowned neuroscientist will lead Tulane Brain Institute as new Presidential Chair

Award-winning neuroscientist Matthew Dalva, PhD, whose research focuses on how the connections of the brain form and are changed by experience, has been appointed as director of the [Tulane Brain Institute](#) and the university's newest Presidential Chair.

Dalva's work on the connections among neurons and how they form, grow and change, will likely lead to new understanding of disorders such as dementia, addiction and autism in which these connections are lost or abnormal. [Read more here.](#)
